Trade Customs

The compilation and checking of a general catalog of supplies and machinery is complicated, involving many thousands of product numbers, dimensions, etc. and absolute perfection is not a commercial possibility. Every endeavor has been made to have the latest lists, dimensions, descriptions and design throughout this catalog, but we do not guarantee accuracy. If any errors or misprints have escaped our checkers and printers, we are not responsible for them, and they are subject to our correction. All information contained in this catalog, pertaining to strengths and proper working loads of material, tools or machines is derived from information compiled by the manufacturers for the convenience of the buyer. We assume no responsibility for the accuracy of this information. We are not responsible for printing errors in prices. We apologize for any inconvenience these errors may cause. Prices subject to change at any time.

Manufacturers are constantly changing designs, specifications and accessories on many items and these are subject to change without notice. Illustrations are subject to modification.

All references in this catalog are for description only and are not representations or warranties of any kind or nature.
